Features

- > Scan slides, film, medium format
- > Dual lens system
- > Removes imperfections
- > Reproduce tonal range and gradation
- > Quick start

Description

Convert all your treasured memories to digital using this professional-quality, 6400dpi scanner. The **Epson V800** requires virtually no warm up time and includes high-quality film holders to help deliver fast, high-quality results. For improved clarity, dust and scratches are automatically removed from film and photos.

Scan from any source

Scan 35mm strips and slides as well as medium format and 4x5 inch large format film in sharp focus thanks to the improved film holders with their adjustable height control and rigid design. The V800 also supports non-standard film formats up to 8x10 inch when placed directly on the scanner glass.

Choice of resolution

The V800 features a dual lens system that automatically selects the optimal lens, with up to 4800dpi optical resolution for reflective photo scanning and 6400dpi when scanning using film holders.

Clean-up images

Digital ICE technologies automatically removes imperfections such as dust, hair, scratches and fingerprints from both film and photos to restore images to their former glory with the minimum of effort.

The right tone

Take advantage of excellent tone reproduction with 4.0 DMax optical density. The V800 can detect the exact tonal range of the original, making sure the brightest and darkest areas of images are accurately reproduced to reveal impressive detail and dynamic range.

Fast start-up

Epson's ReadyScan technology features an LED light source with a warm-up time of less than one second, so scanning can start almost instantly. With a very low power consumption it saves energy too.

Advanced software

As well as Epson Scan, the V800 comes with SilverFast SE 8 software for advanced scanning features.

Specifications

Connection	USB 2.0
Platform	PC & Mac
Operating System	Windows 8, Windows 7, Windows 10, Windows XP, Windows Vista, Mac
Resolution (dpi)	4800, 6400

Applying for online finance

Applying for online finance couldn't be easier or more convenient. Once you've chosen the products you'd like to purchase, simply complete a brief on-line application form accessed via the 'checkout'. Just follow the simple instructions, entering your personal details as required and we'll do the rest.

Once my application is approved, what happens next?

Within minutes of your application being approved, you'll be asked to accept the terms of the contract – once you select YES you will return to the checkout and will proceed through to the completion of your order following which your order will be dispatched for home delivery. Following completion, you will receive an email with a link to download a copy of your credit agreement for your records.

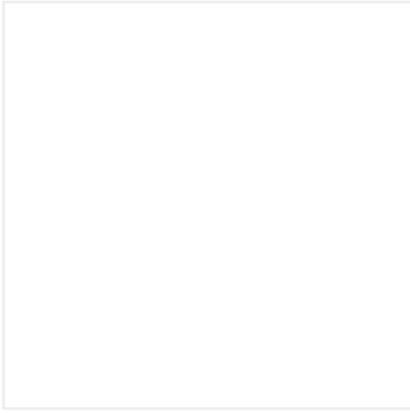

Shipment of your goods will follow as soon as your agreement has been returned to our finance company (usually on the same day).

For more information on our finance payment option please [click here for terms and conditions](#).
